EXPERIENCE

Associate Technical Consultant Jun 2023 - Present
Oracle - Java, Spring, REST APIs, Oracle DB, PL/SQL *Pune, India*

- Designed and delivered **Java/Spring REST APIs** for **Oracle FLEXCUBE Core Banking** modules, supporting Loan, CASA, Term Deposit (TD), Locker, and NBFC workflows.
- Supported **Oracle FLEXCUBE implementation and enhancement activities** by translating banking requirements into scalable service-layer logic and Oracle DB/PL/SQL procedures.
- Integrated **Oracle FLEXCUBE** with **Oracle Banking Payments (OBPM)** for NEFT payment flows, covering beneficiary/IFSC validation, initiation, status inquiry, error handling, reference tracking, and duplicate prevention.
- Developed a controlled **force-debit fund-transfer API** across Java/REST, Oracle PL/SQL, Hibernate, validation controls, audit tables, and deployment configuration.
- Hardened **outward NEFT and external-payout processing** through branch-aware routing, unique reference generation, payment/currency mapping, and duplicate-instruction controls.
- Built **end-to-end loan disbursement and repayment flows**, improving core banking transaction processing across disbursement, repayment, limits, and status-handling workflows.
- Performed **issue analysis, debugging, and defect resolution** by analyzing Java application logs, API payloads, Oracle DB errors, and PL/SQL logic for FLEXCUBE banking flows.
- Coordinated with QA, product, and support teams for **change validation, defect fixes, release verification, and banking module delivery**.
- Developed an internal API validation and developer productivity tool for **150+ Oracle FLEXCUBE APIs**, reducing validation cycles from **4 hours to 4 minutes**.
- Built an **AI-assisted log analysis workflow** for Java application and database errors, reducing debugging time by **30%**.
- Extended **Oracle FLEXCUBE/OBPM screens using RAD Tool** by configuring data sources, data blocks, LOVs, fieldsets, and custom validations for upgrade-safe banking enhancements.
- Supported **end-to-end OBPM ACH credit and debit payment flows**, covering transaction validation, duplicate checks, sanctions/ECA processing, accounting, dispatch, status tracking, returns, and reversals.

Backend Developer Intern Dec 2021 - Feb 2022
Walchand COE - JavaScript, React, Node.js, MongoDB *Sangli, India*

- Built a **web-based maintenance management system** using React, Node.js, and MongoDB, digitizing paper-based complaint workflows and improving tracking for users and administrators.
- Reduced complaint resolution turnaround from **4 days to 1 day** by streamlining request submission, status tracking, and maintenance workflow management.

SKILLS

Languages	Java, JavaScript, Python
Backend/API	Spring Boot, Spring MVC, REST APIs, Microservices, Hibernate, JPA
Oracle FLEXCUBE	Core Banking, Oracle FLEXCUBE, Loans, CASA, Term Deposits, Locker, NBFC Workflows
Payments/OBPM	Oracle Banking Payments (OBPM), NEFT, Payment Mappings, Transaction Inquiry, Reference Tracking, Duplicate-Control Support

Banking Domain	Banking/Fintech, Loan Disbursement, Repayment Flows, Limits, API Integrations
Databases	Oracle DB, PL/SQL, SQL, MySQL, MongoDB, Query Optimization, Indexing
Support/Implementation	Issue Analysis, Debugging, Log Analysis, Defect Resolution, Release Support
Tools/DevOps	Git, Maven, Jenkins, Docker, OpenShift, OCI, Postman, Swagger/OpenAPI, Linux
Testing	JUnit, Mockito, Spring Boot Test, MockMvc, API Testing

EDUCATION

B.Tech in Computer Science & Engineering, Walchand College of Engineering, Sangli 2019 - 2023
CGPA - **8.20**

PROJECTS

HireME - ML Resume Screening Platform
Built an ML-powered recruitment web application using Python and Flask to automate resume validation and candidate shortlisting, reducing manual screening time by **70%**. (GitHub)

Visitor Authorization System
Built a visitor authorization system using Flask and OpenCV that automated face verification, reduced manual check-in time by **60%**, and securely managed records for **1,000** verified users. (GitHub)

ACHIEVEMENTS

- Received the **Oracle FSGIU Pacesetter - Spark Award** for contributions to customer outcomes, delivery excellence, innovation, and team success.
- Developed **Moodle LMS 4.1+** for Walchand COE during an internship. (Website)
- Recognized at the **National-level Sixth Research Symposium on Computing (RSC)** for developing an Art Gallery Management System.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2024 Certified Architect Associate
- Oracle Cloud Infrastructure 2023 Certified Foundations Associate
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
- Oracle Data Platform 2025 Certified Foundations Associate
