EXPERIENCE

Associate Software Engineer

Jun 2023 - Present

Oracle - Java, Spring Boot, REST APIs, Oracle DB, PL/SQL, OJET

Pune, India

- Designed and delivered **Java/Spring Boot REST APIs** for **Oracle FLEXCUBE** modules, supporting Loan, CASA, Term Deposit (TD), Locker, and banking workflows.
- Developed and enhanced REST API flows by extending request/response contracts, implementing business logic changes, and resolving **critical third-party integration issues**.
- Built **end-to-end loan disbursement and repayment flows**, translating business requirements into scalable service layer logic and Oracle DB/PL/SQL procedures.
- Enhanced limits, status handling, and **workflow automation** across Loan, CASA, Term Deposit (TD), and Locker modules, reducing manual intervention and improving operational flexibility.
- Developed an internal API validation and developer productivity tool for **150+ Oracle FLEXCUBE APIs**, reducing validation cycles from **4 hours to 4 minutes**.
- Built an **AI-assisted log analysis workflow** for Java application and database errors, reducing debugging time by **30%**.

Backend Developer Intern

Dec 2021 - Feb 2022

Walchand COE - JavaScript, React, Node.js, MongoDB

Sangli, India

- Built a **web-based maintenance management system** using React, Node.js, and MongoDB, digitizing paper-based complaint workflows and improving tracking for users and administrators.
- Reduced complaint resolution turnaround from **4 days to 1 day** by streamlining request submission, status tracking, and maintenance workflow management.
